

ALQUAT N

CONCENTRATED HYGIENIZING DETERGENT

ALQUAT N is a hygienizing and energetic cleaner based on quaternary compounds and free of caustic alkalis, which combines a high cleaning power with a deep residual capacity that prevents the proliferation of pathogenic germs in contact with surfaces.

Due to its high detergent power, it is an ideal product in those cases where a thorough cleaning of the surfaces is required in addition to a highly hygienizing action. It is recommended for use in all types of industries where food is handled or stored: kitchens, cutting rooms, slaughterhouses, bakeries, workshops, etc. Can be applied in cleaning any surface and utensil.

DOSAGE AND USE

It will be dosed diluted in water, either by spraying, immersion or applied with sponge or cloth, depending on the level of dirt. A dosage between 10 and 20% is recommended to ensure thorough cleaning and proper hygiene. Let the mix of product act for a few minutes and rinse with plenty of clean water.

TECHNICAL CHARACTERISTICS

COLOUR	BLUE
APPEARANCE	TRANSPARENT LIQUID
ODOUR	CHARACTERISTIC
DENSITY	0,99 +/- 0,03 g/cm ³
pH	11,0 +/- 1,0

CONTAINS

5 - 15 %	Cationic surfactants
5 - 15 %	Alcools and amines
< 5 %	Non-ionic surfactants

This product complies with the current legislation on Biodegradability and the Technical Sanitary Regulation of Detergents. Product suitable for use in food industry.
