

ULTRASONIC-HIDRO

WATER DISPLACING CORROSION PROTECTION AGENT

ESPECIFICACIONES TÉCNICAS

Water displacing corrosion protection agent for longer interim storage at thin film thickness.

DOSIFICACIÓN Y FORMA DE USO

By immersion or spraying process

CARACTERÍSTICAS TÉCNICAS

Color: Brown

Appearance: Liquid

Density: 0,77% - 0,797 g/cm³

Material Spec. acc, Detergents Regulation (EC) No. 648/2004 \geq 30% aliph. Hydrocarbons
